Carson Park Baseball

STADIUM RENOVATION

Building the Future while Preserving the Past

The Carson Park Baseball Stadium Renovation Project is a collaboration between the City of Eau Claire, the users of the stadium, and YOU, the many supporters of baseball in the Chippewa Valley!

A COMMUNITY INVESTMENT

Eau Claire's largest park is located on a 130 acre peninsula surrounded by beautiful Half Moon Lake, now known as Carson Park. The land was donated in 1914 by William Carson, lumberjack and banker. Carson Park is the home of several athletic fields, two museums, a railroad, a horseshoe clubhouse, playgrounds, trails and other facilities.

The Carson Park Baseball Stadium is an historic landmark located in the park. Dedicated in 1937, the Baseball Stadium became home field to many notable baseball players, including Hank Aaron. Other major improvements to the stadium were completed in 1975 and 1998. The stadium is currently home to many community baseball teams: Eau Claire High School teams (Memorial, North, Regis and Immanuel), and community teams (Express, Cavaliers, Bears, American Legion, and Rivermen). Over 140 games are played at the stadium annually.

RENOVATION PLANS

Permanent Seating

Permanent seating along the first and third base lines of the stadium will provide a safe and comfortable environment, while making the task of cleaning the stadium convenient and cost effective.

Climate Controlled Restrooms and Concession Areas

Climate controlled restrooms and concession areas on both sides of the stadium will significantly reduce congestion and will allow facilities to open at the beginning of the spring season. Use of portable facilities will be reduced.

Expanded Plaza Area

The expanded plaza area in front of the stadium will enhance the beauty of this historic landmark and create additional event space.

PROJECT COST & FUNDRAISING GOALS

The City of Eau Claire has estimated the renovation cost for the Carson Park Baseball Stadium Project as defined below.

\$3 million for facility improvements including permanent seating, climate controlled restrooms/concession areas, and an expanded plaza area.

The City has set fundraising goals for this project. The total fundraising goal is \$1.5 million. However a minimum goal of \$1.25 million must be met before work on these improvements can begin.
